

# State & provincial governments

INCREASE FISCAL TRANSPARENCY AND MANAGE PUBLIC FUNDS WITH THE HIGHEST LEVELS OF INTEGRITY. OPTIMIZE YOUR RISK MANAGEMENT AND COMPLIANCE ACTIVITIES. REDUCE FRAUD, WASTE, AND ABUSE.

HighBond by Galvanize is designed to streamline your risk, compliance, and audit activities. Easily oversee grants, manage internal controls, monitor program performance, and protect taxpayer funds and data in a single platform.

More than 700 local and state/provincial governments worldwide have turned to Galvanize to address their governance, risk, and compliance challenges. Explore some of the ways our platform can help make your job easier.

## 01 Program oversight

Automate and monitor KPIs and KRIs, analyze trends, ensure compliance on grant expenditures, and reduce improper payments to ensure effective service delivery.

## 02 Workpapers and analytics

Optimize your audits and increase audit team collaboration with our modern workpapers solution, which seamlessly integrates with audit analytics. Comply with Yellow Book standards.

## 03 Contracts oversight

Streamline your assurance, compliance, and monitoring activities in one intuitive platform. Prevent and reduce supply chain disruptions and fraud. Monitor vendor performance and procurement to protect your reputation.

## 04 Whistle-blower hotline

Build an anonymous web hotline where employees, contractors, and vendors can safely report suspicious behavior—and automatically escalate, assign, and notify.

## 05 Automated control monitoring

Automate your control monitoring year-round. Gain transparency into your budget and expenses for fast, informed decisions. Detect and remediate exceptions before they become critical issues, in areas including purchase cards, procurement, payroll, and more.

## 06 Enterprise risk management

Governments face unprecedented levels of risk, from cyber threats to ensuring fiscal responsibility. Our collaborative ERM software allows you to efficiently manage entity-wide risks and helps officials quickly address opportunities and threats.

## 07 Improper payments

Spot fraudsters, comply with federal and state regulations, mitigate risks, and ensure oversight on entitlement programs like Social Security, Medicare/Medicaid, Unemployment Insurance, SNAP, and more.

## 08 Grants OVERSIGHT

We know compliance with grants requirements is challenging, and inadequate or missed internal controls expose you to risks. We'll keep you up to date on Uniform Grant Guidance requirements and simplify your monitoring, tracking, and reporting so you're always compliant and audit ready.

## 09 Fraud investigations

Use analytics to mine your data for patterns, anomalies, and discrepancies to detect fraud. Then continually fine-tune your controls to prevent and detect fraud, waste, and abuse.

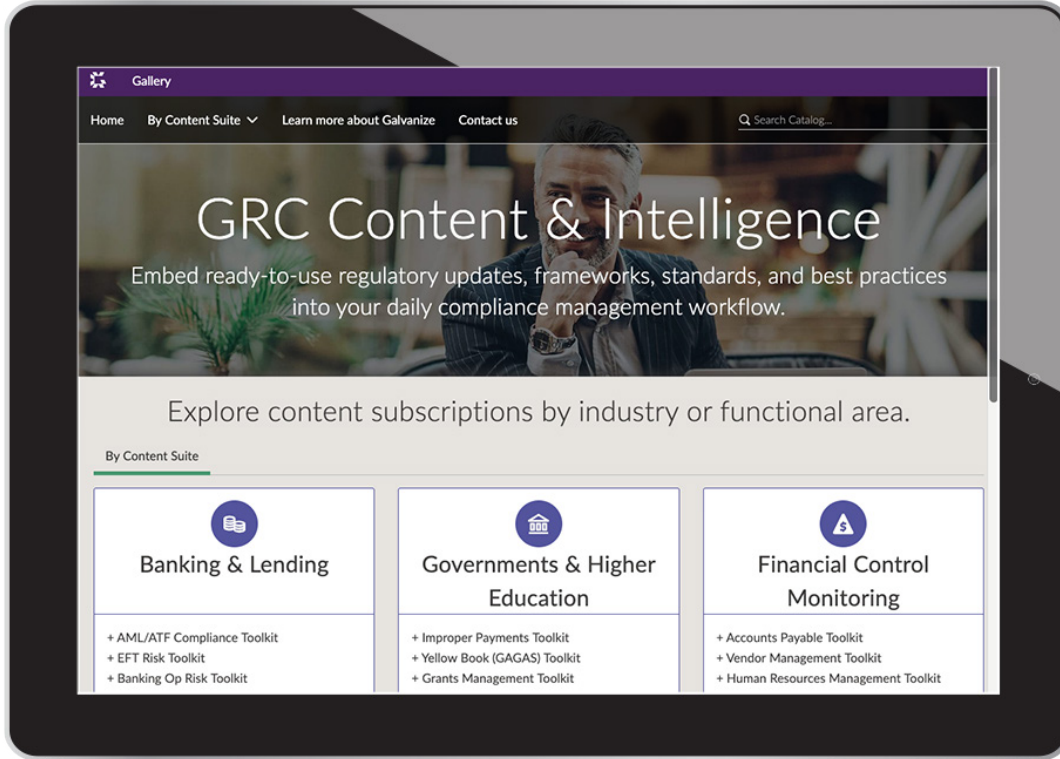

*"It would be impossible to do our work without a tool like HighBond. You need something to be able to pull all that data together, make connections from one database to another, to really develop those findings and you just can't do that manually."*

- Ian Green, Principal Performance Auditor, Oregon Secretary of State

## ACCESS PRE-LOADED CONTENT FOR REGULATIONS, STANDARDS, & FRAMEWORKS

Rely on Galvanize’s Content Suites to ensure you are always up to date on the latest frameworks, standards, metrics, and best practices. Whether you need to detect and deter fraud, waste, and abuse; ensure compliance with federal grants; or manage cybersecurity risk, our pre-loaded content saves you time and helps you quickly identify gaps and overlaps of running multiple programs.

Access updated regulatory requirements and industry standards directly in your software, so you’ll always work from the most current version.

## WE HELP YOU SUCCEED

An enhanced continuous learning environment, including CPE credits, on-demand training, best practices, support documentation, and the ability to connect with your Galvanize peers is included in your subscription.

<p><b>Academy</b></p>	<p><b>Inspirations</b></p>	<p><b>Galvanize Community</b></p>	<p><b>Help Docs</b></p>
<p>Upskill yourself and your team with on-demand software lessons and demonstrations.</p>	<p>Hundreds of analytic testing ideas and pre-built scripts.</p>	<p>Share best practices, strategies, techniques, and experiences with thousands of global HighBond users.</p>	<p>Accelerate your learning and deliver more value with detailed help documentation.</p>
