Experts in Electronic Payments

PAYMENTS INDUSTRY LEADER

INTEGRATED PAYMENT PROCESSING

CONVENIENCE/SERVICE FEE PROGRAMS

EXPERTS IN
ELECTRONIC PAYMENTS

With 27 years of experience serving government and the private sector, AMS understands that a secure and reliable payment system is the key to efficiency and cost savings.

BEST IN CLASS SERVICE

AMS utilizes only the industry's leading PCI and PA-DSS compliant processing software programs and authorization service networks to "match" each merchant's needs with the best solutions available. We specialize in providing integrated payment processing services and solutions to City and County governments using a variety of ERP systems. We go beyond the integration to address regulatory compliance and process optimization based on specific industries.

FLEXIBLE PRICING
We provide our clients with flexible and affordable pricing plans including merchant funded as well as **service** or **convenience fee** programs that meet the unique needs of government agencies.

24-7 SUPPORT SERVICES

PROCESS AUTOMATION

HOSTED SOLUTIONS

PAYMENT
SECURITY

Regardless of the size of your business or agency, we can provide scalable, secure solutions to accept all payment card types including EMV/"chip" cards, as well as contactless NFC payments and electronic checks. We understand the risks of data security involved in processing payments in today's technology environment and ease that burden by using the highest standards of security technology and hosted solutions.

Choosing AMS as your partner means you can accept a wide range of payments while your citizens enjoy a protected environment for payment processing at home or on the go, day or night.

TRANSPARENCY

As regulatory issues and compliance programs from the payment card brands evolve in our industry, we make sure you and your staff receive essential updates and education to stay ahead of the curve. Our sales consultants can help you identify gaps and potential opportunities in your day-to-day processing, to address specific areas for improvement and match the right pricing and solution within your desired budget.

OUR PARTNERS

**FROM POS SOFTWARE
TO BILL PAYMENTS**

Our extensive experience with software developers and the applications they develop and support enables us to "interface" our processing services with just about any application or payment gateway your business or agency acquires.
