

Pivot gives you the freedom to work

by delivering the tools and data that matter most.

Pivot provides a secure way to access account and debt data, empowering you to make critical decisions with confidence.

Pivot's comprehensive data and features help move you toward more effective, paperless interactions with the bank.

File Cabinet

Search and filter on current and historical account statements and governing documents.

The File Cabinet gives you a fast, secure way to find key account documents, eliminating time-consuming manual searches and the risk of sharing sensitive data over unprotected email.

Search for file

Compliance

Quickly view status and identify what to do next.

Upload file to satisfy an outstanding item.

Quickly attach documentation to satisfy an outstanding item via our file sharing capabilities.

Validate that items are being satisfied in a timely manner.

View and export item names, due dates, assignees and status.

Quickly navigate across current and historical items to get to details.

Search all items across accounts and drill into a single item's detail in one to two clicks.
