Questica OpenBook:
Project Explorer for Capital Budgets

The future of finance, it's about being open, transparent and accountable. Build trust that enables better ideas, better conversations and better financials.
Our newest data visualization in Questica OpenBook enables organizations to display on a map every infrastructure project, including the budget, actual spend, funding sources, and accompanying documentation, images, video, etc. Organizations can link related activities to showcase the depth and scope of capital projects that are happening in a city, region, or state/province.

Better data integration

Often one of the primary difficulties with capital map offerings is the challenge of integrating data. It can take a lot of work to prepare the data sources that will form the basis for a public visualization. Since Questica Budget is tightly integrated with OpenBook, we have no limitations on the number of datasets and types of data we can send. The information is all there inside Questica Budget and we know exactly how to transform and send it.

Always up-to-date

If you see a project title or a budget number that doesn't look right, you can adjust your data in Questica Budget, click the publish button, and be looking at your updated visualization within seconds.

We can support many different types of data:

- Separate data sets for expenses and revenues
- Operating Budget impacts and related projects
- Images, videos, and GIS map data
- Downloadable file attachments
- Project milestones and custom fields

Questica OpenBook features include:

- Import any data
- Display data in interactive maps, charts, tables and graphs
- Include images, GIS map data , resource documents, video and more
- Access through any platform, including smartphones
- Share data through all social platforms
- Embed charts on any website
- Set-up in minutes, intuitive to use
- Easily mastered with online training videos and guided tours
- Seamlessly connects with Questica Budget, also embed on dashboards
- Integrates with Balancing Act's budget simulator tool to promote and support deeper two-way stakeholder consultation and engagement.
