IDENTIFY AND ADDRESS PATTERNS OF NON-COMPLIANCE

Maintaining services and the trust of citizens demands that governments have a uniform and fair system for tax assessment and collection. Avenu works with local government management teams to correct and capture lost revenue and provide best practices to prevent future errors.

Our nationwide team of certified examiners and accountants use their region-specific expertise to uncover millions in underreported taxes. We dive deep into local ordinances, regulations, statutes, and laws to uncover every opportunity for growth across a variety of tax types. Where we find irregularities, we work directly with the local government management team to correct and capture lost revenue in addition to providing best practices and education to prevent future errors. With constant monitoring, examining, and correcting, Avenu ensures ongoing and level compliance across your community for years to come.
