Paymentus is innovative. They have a good product that captures a niche market for municipalities.”

Our PCI scope has really reduced. We used to work with three vendors in order to provide the payment options we have now with Paymentus.”

— CUSTOMER OPERATIONS TECHNOLOGY SPECIALIST

“

Our company used to spend hours each day reconciling payment files from across our business. Now the Paymentus agent dashboard does most of the work for us. It's really saved us a ton of time.”
