

## GALVANIZE SOLUTIONS FOR

## Local governments

EMPOWERING CITY AND COUNTY GRC PROFESSIONALS TO PROMOTE LONG-TERM ECONOMIC SUSTAINABILITY, AND ENSURE SERVICE CONTINUITY WITH OPTIMIZED ASSURANCE, OVERSIGHT, AND RISK MANAGEMENT.

Whether you're a small county or a large city, our HighBond platform is designed to automate and streamline all of your risk, audit, and performance management processes.

More than 700 local and state/provincial governments worldwide have turned to Galvanize to address their governance, risk, and compliance challenges. Explore six ways our platform can help make your job easier.

### 01 Workpapers & analytics

Optimize your audits and increase audit team collaboration with our modern workpapers solution, which seamlessly integrates with your audit analytics. Deliver increased value while complying with Yellow Book standards.

### 02 Financial control monitoring

Gain valuable insights into your operating expenses and easily monitor procurement, payroll, purchase/fuel cards, phone bills, financial stress indicators, and more with automated control monitoring. Keep a close watch for fraud, waste, and abuse, and automate the remediation of red flags.

### 03 Enterprise risk management

Local governments face unprecedented levels of risk, from cyber threats to ensuring fiscal responsibility. Galvanize's intuitive and collaborative ERM software allows you to efficiently manage entity-wide risks and helps officials quickly address opportunities and threats.

### 04 Contracts oversight

Mitigate contractor risks to prevent and reduce supply chain disruptions and fraud. From ensuring compliance with procurement policies to post-award monitoring and vendor performance management, HighBond helps you automate contractor oversight.

### 05 Whistle-blower hotline

Build an anonymous web hotline where employees, clients, contractors, and vendors can safely report suspicious behavior—and then automatically escalate, assign, and notify.

### 06 Grants oversight

If you receive federal or state funds, you know all too well that keeping up with reporting, compliance, and monitoring is time consuming and complex. We'll keep you up to date with the latest requirements, help you track risk assessments, and prevent and detect improper payments so that you're always compliant and audit ready.

Figure 2: Conduct risk work shops

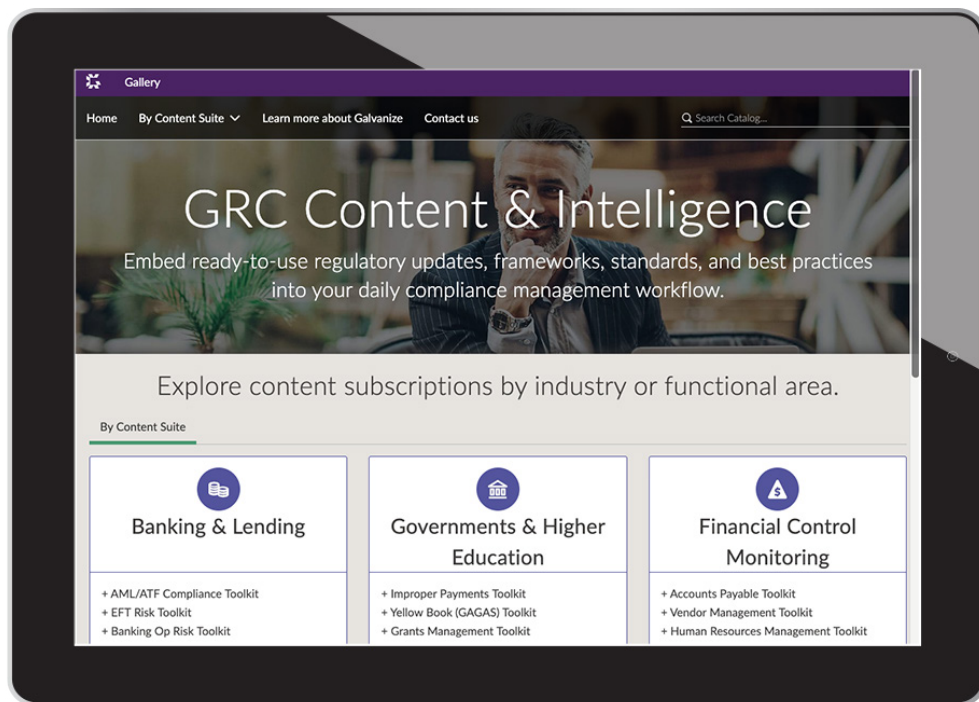

*"We're so far ahead of the game that my people now are enthused and excited to work. They are actually performing at a much higher level. And time is so much more available when you've got an automated process. I mean, they used to spend literally dozens and dozens of hours doing manual work papers."*

- Carlos Holt, City Auditor, City of Gainesville

## ACCESS PRE-LOADED CONTENT FOR REGULATIONS, STANDARDS, & FRAMEWORKS

Rely on Galvanize's Content Suites to ensure you are always up-to-date on the latest frameworks, standards, metrics, and best practices. Whether you need to detect and deter fraud, waste, and abuse; ensure compliance with federal grants; or manage cybersecurity risk, our pre-loaded content saves you time and helps you quickly identify gaps and overlaps of running multiple programs.

Access updated regulatory requirements and industry standards directly in your software, so you'll always work from the most current version.

## WE HELP YOU SUCCEED

An enhanced continuous learning environment, including CPE credits, on-demand training, best practices, support documentation, and the ability to connect with your Galvanize peers is included in your subscription.

 Academy	 Inspirations	 Galvanize Community	 Help Docs
Upskill yourself and your team with on-demand software lessons and demonstrations.	Hundreds of analytic testing ideas and pre-built scripts.	Share best practices, strategies, techniques, and experiences with thousands of global HighBond users.	Accelerate your learning and deliver more value with detailed help documentation.
